INFORMATION DISCLOSURE  
STATEMENT UNDER 37 CFR §1.97 and  
§1.98

Mail Stop: Amendment  
Commissioner of Patents  
P. O. Box 1450  
Alexandria, VA 22313-1450

Sir:

The references cited on attached forms PTO/SB/08A and PTO/SB/08B are being called to the attention of the Examiner. Copies of references ON-OO are enclosed. Copies of references JS-KC, MX-NE, NU-OA and the attachments of references AC, AI and AJ are provided in parent application 09/385,597 filed August 30, 1999, which forms part of the record of the present application. See 37 C.F.R. §1.98(d); MPEP §609. References NF-OA are references of record in commonly assigned U.S. Patent No. 5,723,853 while references OB-OM are references of record in commonly assigned U.S. Patent No. 5,942,741. References of record in additional applications that are family related to the present application are also submitted herein. The present Information Disclosure Statement is being filed to make additional

information of record in the present application including references and other information of record in various applications that are family-related to the present application.

It is respectfully requested that the cited references be expressly considered during the prosecution of this application, and the references be made of record therein and appear among the "references cited" on any patent to issue therefrom.

Reference ON is a report summarizing references cited by the applicants or the Examiner in applications of which priority is claimed. Examiners have a duty to consider art references of parent patent applications. *See* 37 C.F.R. §1.98(d); MPEP §609. The Examiner is respectfully requested to initialize the box adjacent to the ON reference listing to indicate that the Examiner has considered the references of record in the applications of which priority is claimed under 35 U.S.C. §120. Applicants also submit reference OO, a report categorizing certain submitted references into various categories. The report attached as reference OO is intended to assist the Examiner in the Examiner's review of the significant number of references submitted. Applicants will also supply, at the Examiner's request, a computer accessible file that facilitates computer text searching of U.S. patent references that have been submitted.

As provided for by 37 C.F.R. §1.97(h), no inference should be made that the information and references cited are material to patentability. Also, no inference should be made that a reference is prior art merely because it is included in this statement. Under 37 C.F.R. §1.97(g), the submission of an information disclosure statement should not be considered as representation that a search has been made.

Applicants believe that a fee of \$180.00 is required for submission of this statement.

The Commissioner is hereby authorized to charge any additional fees associated with this communication or credit any overpayment to Deposit Account No. 50-0289.

Respectfully submitted,
